Author: The Law Library

Realese Date: Expected @@expectedReleaseDate@@

The Law Library presents the complete text of the National Oil and Hazardous Substance Pollution Contingency Plan National Priorities List - Intent for Partial Deletion of the Denver Radium Superfund (US Environmental Protection Agency Regulation) (EPA) (2018 Edition).u003cbr /u003eUpdated as of May 29, 2018u003cbr /u003eu003cbr /u003eThe Environmental Protection Agency (EPA) Region 8 is publishing a direct final Notice of Partial Deletion of the Denver Radium Superfund Site (Site). Specifically, EPA intends to delete from the National Priorities List (NPL) each of the 11 operable units at the Denver Radium Site, located in the City and County of Denver, Colorado. Groundwater contamination associated with Operable Unit 8 will remain on the NPL. The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). This direct final partial deletion is being published by EPA with the concurrence of the State of Colorado, through the Colorado Department of Public Health and Environment, because EPA has determined that all appropriate response actions at these identified parcels under CERCLA, other than operation, maintenance, and five-year reviews, have been completed. However, this partial deletion does not preclude future actions under Superfund.u003cbr /u003eu003cbr /u003eThis ebook contains:u003cbr /u003e- The complete text of the National Oil and Hazardous Substance Pollution Contingency Plan National Priorities List - Intent for Partial Deletion of the Denver Radium Superfund (US Environmental Protection Agency Regulation) (EPA) (2018 Edition)u003cbr /u003e- A dynamic table of content linking to each sectionu003cbr /u003e- A table of contents in introduction presenting a general overview of the structure
